

Product component

part positioning is better than x mm [R1]

Product component

part is protected against chocs [R2]

Product component

fastening torqus is 50N.m +/-10 [R3]

#G01 :
Product Overall

Instructions for manufacturing

Product component

electostatic chocs are avoided [R4]

Product component

part is not exposed to heat abaove 120Å°C [R5]

Product component

part is protected against chocs [R6]
